

SPATIO-TEMPORAL MODELS WITH INLABRU

Noumea (New Caledonia) 9-12 March 2026

Jafet Belmont, Sara Martino and Janine Illian

1 Welcome to the course!

- Welcome to the `inlabru` workshop in New Caledonia!
- The aim of this workshop is to introduce you to a range of statistical modelling approaches, in particular the temporal, spatial and spatio-temporal modelling as implemented in the `inlabru` package.
- Workshop materials are available in the github repository

⚠ Important! □

Please use the instructions provided [here](#) to install and check your installation *before* the course start.

2 Learning Objectives for the workshop

At the end of the workshop, participants will have an understanding of:

- the motivation for and the challenges of analysing and modelling spatial data
- statistical models used to analyse spatial and spatio-temporal data
- the implementation of these models in the `inlabru` package
- how to independently analyse spatial data with `inlabru`

3 Intended audience

The workshop aims to cater for participants with a range of different backgrounds, who is interested in analysing data with modern spatial and spatio-temporal statistical modelling approaches.

4 Prerequisites

Participants should be familiar with the R environment, and general statistical approaches for modelling such as regression, analysis of (co)variance, and generalized linear models.

No knowledge of R-INLA or `inlabru` is required.

5 Schedule

NOTE The schedule is indicative and some changes might come!

5.0.1 Day 1

Time	Topic
10:00 - 10:30	Welcome and intro to the course
10:30 - 11:30	Session 1: Introduction to inlabru
11:30 - 13:00	Session 2: Some practical tips on inlabru
13:00 - 14:30	Lunch break ☐
14:00 - 15:00	Practical Session 1
	Practical Session 2
15:00 - 16:00	Session 3: Time Series Models

5.0.2 Day 2

Time	Topic
8:00 - 9:15	Session 3 cont.: Time Series Models
9:15 - 11:00	Practical Session 3
11:00 - 12:00	Session 4: Introduction to Spatial Statistics
12:00 - 13:00	Lunch break ☐
13:00 - 14:00	Practical Session 4
14:00 - 15:00	Session 5: Areal processes

5.0.3 Day 3

Time	Topic
8:00 - 09:00	Session 6: Geostatistics
09:15 - 11:00	Practical Session 5
11:00 - 12:00	Session 7: Point Processes
12:00 - 13:00	Lunch break ☐
13:00 - 14:00	Practical Session 5 (continued)
14:00 - 15:00	Session 8: Spatiotemporal models

5.0.4 Day 4

Time	Topic
8:00 - 9:00	Session 9: Model comparison and evaluation
09:15 - 11:00	Practical Session 6
11:00 - 12:00	Session 10: Multi-likelihood/joint likelihood models
12:00 - 13:00	Lunch ☐
13:00 - 14:00	Practical Session 7
14:00 - 15:00	Closing session and discussion
